Name: _____

Solving the World's Problems

If you could solve any problem in the world, which problem would it be? Why would you choose to solve that particular problem? How would you solve it?

If you run out of room above, use the back of this page or get another sheet of paper.

I don't mean to "bug" you, but you might...

- ***list three problems the world faces.***
- ***think about how the world would be a better place if each of those problems was solved.***
- ***choose the biggest problem and tell what you would do to solve it.***
