**1. Establish a solid foundation:
Education is important**

**2. Lead by example!
Children imitate what they see!**

3. Make learning fun!
Share the excitement of learning new things.

4. Teach your children to be open to varying/differing thoughts and ideas.
Honor the diversity of the world.

5. Know your child's progress;
Grade level readiness, stds., benchmarks, etc.

6. Know what questions to ask regarding your child;
Does my child have a disability? What should I do?
